

Special Conditions for Breeders and Comparable Industries or Institutions pursuant to § 4 DA

This provision is intended to enable distributors to acquire new distributors in the future who were previously generally not permitted to broker REiCO products.

This provision applies to the following “distributor types”

- Breeders
- Veterinarians
- Alternative veterinary medicine practitioners
- Dog training schools
- Dog and cat groomers

The following conditions must be met

- The interested party must be registered as a distributor.
- The products must be adequately presented in showrooms or treatment rooms.
- The products must be presented in their most current version.
- It must be made clear that the products presented are display goods and are not intended for on-site sale.
- It is not permitted to display price tags on the products – a reference to the transaction / price indication is recommended.
- The relevant statutory professional regulations (e.g., for veterinarians) must be observed or clarified in advance.
- The registering distributor must appropriately assess and document whether the presentation of other products comparable to REiCO exists and can be accepted – in the sense of a derogation from § 4 Para. 2 of the Distributor Agreement.
